ZANZOF STRONG BIOCIDAL PRODUCT (PT 19)

Authorization No. IT/2017/00362/AUT - Ministry of Health

VALIDITY: 36 months in the original packaging

Before application, carefully read the instructions and warnings on the below leaflet.

PRODUCT FEATURES

Ready to use insect repellent lotion. Protects against mosquito bites of various species, including the Tiger mosquito, both during the day and at night, up-to eight hours. Indicated for use in areas infested by the tropical mosquito (*Anopheles gambiae*) where it provides protection for three hours.

Effective against black flies (black midges that attack mammals). Its use is therefore particularly suitable in infested areas, such as riding stables, farms, campsites, rural areas for 6 hours. It is also effective against ticks, allowing the treated areas to be protected for six hours. Its use is therefore indicated in case of frequenting infested areas such as wooded areas, meadows, agricultural areas and rural areas in general. Very useful in MTV areas to control the spread of Vector Borne Diseases.

For the safety of children it contains DENATONIUM BENZOATE, a very bitter substance that helps prevent accidental ingestion of the product.

Contains Aloe Vera as a skin emollient. The applicator allows a correct and easy dosing of the lotion.

INSTRUCTIONS FOR USE AND DOSAGES

The product should be used outdoors or in well-ventilated areas. Shake before using. Apply the product by spreading it evenly on the skin to be protected. For applications on the face and neck, dispense a little product quantity into the palm of your hand and spread avoiding the eyes, nose and mouth. Do not use the product on hair or clothing.

WARNINGS

Do not apply on children under 2 years. The application on children between 2 and 12 years must be performed by an adult.

Avoid allowing the product to come into contact with children's hands.

Do not apply more than once a day on children between 2 and 12 years old.

Do not apply more than twice a day on adults. Use with caution on delicate skin, especially children up to 12 years old. Do not use on abraded, macerated skin or wounds. Do not use on skin reddened by the sun. In case of adverse reactions, remove the product immediately by washing carefully with soap and water. If symptoms persist, contact a doctor and show him the product label. Avoid contact with plastic materials.

Do not contaminate food, drinks or containers intended to contain them during use. Avoid contact with eyes. The product fear the frost. Do not reuse the container and do not dispose of it in the environment but dispose of it in compliance with current regulations.
